WELCOME TO SOLINGUA

Let me spend a few words about Benalmádena (Málaga), Andalusia and Solingua.

It's already quite some years ago that I came the first time to Málaga and I felt right from the beginning that this part of Spain is special. The weather, the people, the food, the beaches, it was a perfect match.

When I later realized that the Spanish language is not only beautiful but also one of the world's most important languages for business, it was clear to me that this was the place to come to study Spanish.

More than 10 years later and after having studied in different schools in the area, I decided to open my own Spanish school in order to combine all the good things I've seen and to add the aspects which I found were missing at the places I've been. Solingua Instituto was born.

With Benalmádena Costa I found the perfect location for the school because with it's about 80'000 habitants, it is not too big and offers everything you could ask for. Parks, beaches, golf courses, harbor, national and international restaurants, bars, sports facilities, shopping, etc., etc.

The perfect place to combine Spanish studies with leisure and fun.

At Solingua you will find a dynamic and

motivated team of professionals, native teachers, trained to make your course at the same time effective and entertaining. You will see the results from the first day on. Whether you want to learn Spanish for business, for travel or for fun, whether your 18 or 60 years old, just tell us your target and we will guide you there.

But when school is out, our service goes on. The Solingua's team will also be at your side if you need any support outside from school. Doesn't matter whether you want to buy tickets, book excursions, find places to go or for any other support you may need, just let us know and it will be pleasure to help you. Tell us what you need and let us do the rest.

We are looking forward to welcome you here soon.

Hasta pronto,

Hansruedi Habegger

GENERAL INFORMATION

Benalmádena

Once you have made the decision to study Spanish - the world's 2nd business language, spoken by over 300 million people - the most appropriate place to do so is Spain. In a country of great contrasts there is nowhere better to learn the language than in the southern region, called Andalucía, in which Málaga is situated. Here you will find the typical images that most people associate with Spain: Flamenco, the white-washed villages (pueblos blancos), Moorish palaces, blue skies, splashes of colourful bougainvillea, bull fights, historic city centres, sun-drenched beaches and, of course, the passion which the Andalucians dedicate to enjoying life! The famously warm, friendly and extrovert nature of the Andalucian people helps to create excellent teachers and a welcoming atmosphere for those who

want to meet the local people and learn about their customs and cultures.

Benalmádena is one of the most popular areas at the Costa del Sol. It has the highest concentration of theme parks in Malaga, two golf courts, a casino, a 20-kilometre long coastline and a fabulous marina. Benalmádena Pueblo has a picturesque urban townscape with its narrow streets, small squares and whitewashed houses, while Benalmádena Costa offers an holiday experience, with its beaches, bars and hotels and the famous puerto - Puerto Marina. In addition, Málaga, with the major international airport of the south of Spain, is the focal point of Andalucía's modern motorway network making it ideal for visiting Granada, Sevilla, Córdoba and Ronda.

Why Solingua

We are a new, fresh, dynamic, happy and different school, located in Puerto Marina in Benalmadena Costa. Open since July 2014, we have developed teaching Spanish as a foreign language.

By deciding to study at Solingua Instituto you will be choosing a school which meets the membership criteria of some of the leading quality control organisations and trade associations of the language teaching world. Solingua Instituto is an "Accredited Centre" of the Instituto Cervantes, Fedele and Español en Andalucía.

Our school offers a wide range of courses for youth and adults, for groups and individuals, from beginner to advanced level. Our passionate team of native Spanish speakers makes the classes dynamic, interesting and effective. We

also organise excursions and activities in Andalusia depending on our students' needs.

There are 7 well appointed classrooms. Each is equipped with comfortable classroom furniture and whiteboards and free wi-fi is available throughout the school.

Why should you choose Solingua?

- Family atmosphere.
- Only 100 metres away from the beach.
- Friendly and personalised service.
- Professional, competent and motivated team.
- Qualified Spanish native teachers.
- Class size: 6-8 students.
- Cervantes Institute accreditation.
- Personalised excursions and activities.

Methodology

Our methodology is dynamic, communicative and participatory.

Our teachers are lively, well-educated, interesting people whose role is to motivate and stimulate the participation of all their students. They must be native speakers of Spanish and have a University degree or comparable experience.

As we have a wide range of different courses with differing objectives, our teaching style varies according to the type of course. Above all we aim to teach our students in an effective, enjoyable and professional manner. On our main Spanish courses, we use an integrated method combining many aspects of the communicative approach with structured learning of grammar and syntax. We incorporate complementary techniques and strategies that have also been proved to be successful in languages

learning, such as language games, pair work and role-plays aimed at developing communicative fluency. Our students are encouraged to speak in Spanish from the very beginning. Integrated homework exercises are used to practise and reinforce the previous day's work.

A dedicated and qualified teaching team, will help you with new teaching techniques, making the classes interesting, fun and effective.
